[Lead in time: 14 days]

Single Ancestral Line (€900)

An in-depth genealogical research project tracing a single ancestral line or target ancestor. Using traditional and genetic genealogy techniques, this work uncovers family connections, places of origin, and the historical context that shaped your ancestor's life, bringing the findings together in a refined, coherent narrative.

Two Ancestral Lines (€1,800)

A comprehensive research commission tracing two distinct ancestral lines or target ancestors. Blending traditional and genetic genealogy, it reconstructs each lineage, identifies places of origin, and situates your forebears within their communities, revealing connections, contrasts, and migrations across generations in a cohesive, finely crafted narrative.
